

Empalis Service Plus

We manage IBM Spectrum Protect for you!

BRONZE

SILVER

GOLD

PLATINUM

Support made in Germany: personal, flexible and reliable.

Personal, high quality and German-speaking support is becoming increasingly important. How quick is the current reaction time to your problems and how quickly are they resolved? How much time is needed until a solution is found?

Challenges with ISP

- Spectrum Protect delivers new functionalities four times a year
- The amount of data is increasing rapidly
- Backup and maintenance windows are becoming increasingly smaller
- The complexity of the solutions is increasing (Virtualization, clusters etc.)
- Administrators are getting more and more tasks
- Software and support quality don't scale with the increase in data and complexity
- Privacy and Compliance Requirements are becoming more important

Our approach

By using a tailor made monitoring solution we recognise problems before they arise. You can send support requests for every error message directly to our specialists. Thanks to integrated service quotas you can all upon additional services if required, even if those have not been previously defined. Our specialists will help you with occurring errors and give you recommendations for optimization as well as future security of your personal IBM Spectrum Protect infrastructure - and implement them.

By the way:

Our software + service offer „Empalis Service Plus“ is also available for and with Veeam. If interested, just ask our experts.

Our service packages at a glance

Bronze 	Silver 	Gold 	Platinum 
<p>Our introductory package:</p> <p>With ESPlus Bronze we offer you a quota of retrievable service units and guarantee fastest response times.</p> <p>Our initial health-check guarantees highest service quality from day one.</p> <p>In addition, our service package includes Monitoring and Reporting, Analytics as well as additional service reviews.</p>	<p>Extended flatrate service:</p> <p>ESPlus Silver builds on our starter package Bronze and includes all therein contained services.</p> <p>Instead of a limited contingent you will receive a proactive all-round-service for your ISP server as flatrate (optionally also 24x7).</p> <p>Other services such as a reactive client support complete the offering.</p>	<p>Comprehensive premium support:</p> <p>The ESPlus Gold Package includes all services from ESPlus Silver.</p> <p>In addition to the flatrate for your ISP server you also get a service flat for previously defined clients.</p> <p>The care of other clients can be billed via available service units if needed.</p>	<p>The all-round carefree package:</p> <p>With our ESPlus Platinum Service you will get a proactive all-round service for all your ISP servers and all clients as a flatrate.</p> <p>For a fast, safe and all-encompassing service.</p>
Support through Technical Manager + Service Manager			

An experienced Senior Spectrum Protect Consultant accompanies and advises you as Technical Manager during the entire contract period in all technical matters. A service manager from the Empalis management also acts as contact person for the IT management and supports you in all non-technical questions.

Your benefit

- Personal, uncomplicated service in German
- Simple package structures for manageable costs
- Transparency and quality thanks to minimal processes and clear documentation
- Simple approach through the use of web technologies (ticket portal, Knowledgebase, remote control)
- Early problem detection and resolution thanks to round-the-clock monitoring
- Full access to the Empalis specialist network
