

Your data is the backbone of your company. Be on the safe side with us by your side.

Your IT should just work? Your solutions should be safe? Empalis has been providing customized IT solutions and services for over 30 years.

Efficient consulting, outstanding quality, future-oriented partnerships - for more than 30 years. We have developed our consulting, training and managed service divisions into compact service packages for you.

Everything from a single source

Being fast and excellent - that is our specialty. This is only possible with deep product expertise.

We work with passion and the best experts on your topics - for your company. We reduce complexity and create transparency. We manage your IT issues, professionally and technically. We set up your system to suit you: secure, reliable and easy to use.

Services, solutions & know-how transfer

Expertise from Empalis means deep professional and technical knowledge and competence.

Not only do we solve your IT requirements. We make your system suitable for you. We are happy to support you in all areas of your business, from architecture design to implementation and, if required, as a fully managed service.
